# SAFETY 1ST

For your safety and enjoyment it is important for you to practice the folding and unfolding of your bicycle several times before riding it for the first time. After carefully following these simple instructions you should be able to successfully fold, or unfold your new bike in a matter of seconds. Always follow the sequence provided in this instruction guide.

- Before you ride your new bike, we recommend that you have it checked out by a professional bike technician. This will insure your safety and insure maximum performance.
- Before each bike ride we suggest that you examine your bike, adjust and tighten all fittings and quick connect locks, and check your brakes and tire pressure.
- If your bike has been damaged or any of the quick lock features are not working properly, **do not ride your bike.** Have it serviced by a qualified technician.
- Before you ride your bike you should know all of the safety regulations in your area. Please observe all safety regulations and rules of the road.
- Additional safety information is available in your "Bicycle Owners Manual" which is supplied separately with this bicycle. Please read it thoroughly before operating this bike.
- Maximum rider weight should not exceed 240 lbs.

## LIMITED WARRANTY

This bike includes the following warranty, which is in lieu of all other warranties expressed or implied. This warranty gives you specific rights, and you may have other rights which vary from state to state.

**FRAME, FORK & COMPONENTS** are warranted against faulty materials and workmanship for a period of one year from date of purchase by the initial consumer purchaser, subject to the conditions set forth below. A copy of the dated sales receipt will be required for all warranty claims.

### LIMITATIONS & EXCLUSIONS

This warranty does not cover normal wear and tear or any damage, failure or loss caused by:

1. Accident, neglect, abuse, misuse or loss of supplied parts
2. Competitive cycling in any form or cycling events
3. Stunt riding, ramp jumping, acrobatics or similar activities
4. Use with a motor as a power driven source
5. Improper assembly, maintenance or alterations of any kind
6. Failure to follow instructions in the owner's manual and/or assembly instructions
7. Rust or corrosion due to exposure to the elements

To qualify under the terms of this warranty the defective part must be presented to the store in which the bike was purchased, or to the manufacturer's warranty center, along with the dated sales receipt. If the claim qualifies under the terms of this warranty, the maker will, at its option repair or replace the defective part, without charge, except for labor and shipping costs, if any, to the original purchaser. Repair or replacement of the defective part constitutes the sole and only remedy under this warranty.

## Step 5

Unfolding Pedals. Simply pull up on your pedal until it snaps into place. You may easily fold your pedals away for storage by pushing them in slightly towards the bike frame, and then folding up.

**PLEASE READ YOUR  
"BICYCLE OWNER'S MANUAL"  
BEFORE OPERATING THIS BICYCLE.**

If you have any questions or problems with your new Port Runner, please do NOT contact West Marine. Please call our friendly technical staff for assistance.

# KNOWING YOUR BIKE

## Some Helpful Terms...

- A Seat Assembly (includes: seat, seat post, luggage rack)
- B Frame Lock
- C Handle Bar Lock
- D Quick Release Seat Lever
- E Folding Pedals

# FOLDING YOUR BIKE

## Step 1

Unpacking your bike. Carefully remove all protective wrapping and discard. Set the Seat Assembly aside for a moment. Standing on the bike chain side of the bike, swing the front and rear halves of the bike apart.

## Step 2

Secure the quick connect Frame Lock. Be sure that the spring loaded bolt is tight and the fold down lever rests flush against the surface. Fold down the quick connect lever. It should lock firmly in place.

## Step 3

Secure the Handle Bar Lock. Swing the handle bar up into position. Align the wedge shaped block into position and tighten down the locking handle by turning it clockwise, until secure.

## Step 4

Install the Seat Assembly. Install the Seat Assembly post into position to your desired height. Tighten the Quick Release Seat Lever by pushing forward until firm. Caution: If the Seat Assembly can still turn from side to side, or slide up and down, you will need to tighten the adjusting nut on the other side of the Quick Release Seat Lever before securing. Note: 15 lb maximum weight for the Luggage Rack.
