

INSTALLATION INSTRUCTIONS

Thank you for choosing Ambassador Marine.

Your new Ambassador Marine faucet, sprayer, shower or accessory will give you years of trouble-free performance. Please read these instructions carefully before installing your new item. If you have any additional questions about the installation of this product, please feel free to contact one of our friendly customer service representatives at 800.270.4262.

1) Check desired position to make sure there is enough room for the hose to gather under the deck without getting caught on anything. Drill 1" hole in the deck in the desired location.

2) Remove hose nest assembly from hose/sprayer assembly. Unscrew 1/2" adapter from hose and pull hose out through the top side of the hose nest shaft. Remove lock nut from hose nest shaft.

3) Slip hose nest through the hole in the deck. Make sure hose nest collar properly lines up with the hose nest shaft. From under the deck, thread the lock nut onto the hose nest shaft and tighten.

4) Slide hose/aprayer assembly back through the hose nest shaft from above the deck and replace the 1/2" adapter.

5) Connect to desired 1/2"-Male water source or valve. Make sure the rubber washer is in place in the larger female side of the adapter.

6) This sprayer has two functions: intermittent and continuous. For intermittent spray, simply press down on the trigger. For continuous spray, lift up on the trigger until it locks. To release, simply press the trigger back down. If you wish to remove the hook from the sprayer, unscrew the face. Slide the hook off the sprayer and remove the large, black, flat washer from inside the face. Replace the face.

PROPER FINISH CARE

Your new faucet or accessory is protected by a clear-coat. To clean it, you only need to wipe it with a damp, soft cloth. NEVER use any abrasive cleaners, steel wool, or chemicals (including alcohol or ammonia), as they will harm the finish and void your warranty. If the item will be installed in a salt-air environment (boat exterior), regular cleaning with gentle soap and carnauba wax will prolong the life of the finish.
