

## INSTALLATION INSTRUCTIONS

Thank you for choosing Ambassador Marine.

Your new Ambassador Marine faucet, sprayer, shower or accessory will give you years of trouble-free performance. Please read these instructions carefully before installing your new item. If you have any additional questions about the installation of this product, please feel free to contact one of our friendly customer service representatives at 800.270.4262.

- 1) Check if your recessed cup has 4 holes pre-drilled in the sides of the cup. If you already have the holes, skip to Step 2. Using a 3/16" drill bit, drill 4 holes in the side of the recessed cup, as illustrated, approximately 3/4" down from the flange.
- 2) Slide the mesh bag up over the outside of the recessed cup, aligning the side supply access hole in the bag with the side cut-out of the cup, until the top seam of the bag reaches the bottom of the flange. Align a hole in the mesh bag with one of the rivet holes in the side of the recessed cup and press one of the rivets through the mesh bag and into the rivet hole, sandwiching the mesh between the head of the rivet and the recessed cup. The rivet will be properly inserted when you feel it snap into place. Repeat for the 3 remaining rivets. Note: 1 extra rivet is included for your convenience.
- 3) Attach recessed shower hose to supply (following the installation steps provided with the recessed cup) through either the bottom supply access or the side supply access.
- 4) Tighten plastic tie around the bottom supply access hole, to prevent hose from falling out the bottom of the bag.

## PROPER FINISH CARE

Your new faucet or accessory is protected by a clear-coat. To clean it, you only need to wipe it with a damp, soft cloth. NEVER use any abrasive cleaners, steel wool, or chemicals (including alcohol or ammonia), as they will harm the finish and void your warranty. If the item will be installed in a salt-air environment (boat exterior), regular cleaning with gentle soap and carnauba wax will prolong the life of the finish.
