CUSTOMER SERVICE
For information on product availability, order status, to change/cancel an existing order or for any other customer service inquiries, call toll-free Monday through Friday 9:00 a.m. – 6:00 p.m. (USA) or Monday through Friday 8:30 a.m. – 5:00 p.m. (Canada). You can also email us at
danze.customerservice@globeunion.com.

USA: 1-877-530-3344
Canada: 1-866-884-8841

ORDER ENTRY
To place an order directly with the manufacturer, please submit your purchase order via fax 1-630-679-1430 or by email danze.orders@globeunion.com.

WARRANTY PARTS/TECHNICAL SUPPORT
For technical support on product installation, trouble shooting, or parts related inquiries, call toll-free Monday through Friday 8:00 a.m. – 8:00 p.m. or Saturday 9:00 a.m. – 6:00 p.m. (est). To order a warranty part, please submit your purchase order via fax 1-866-907-8003 or by email support@globeunion.com.

USA: 1-888-328-2383
Canada: 1-800-487-8372

RETURN POLICY
There will be a minimum 25% restocking charge for authorized returns of brass fittings, a minimum of 35% restocking charge for authorized returns of fixtures. Freight cost for return of good material is the responsibility of the customer.

Should you find your product to be damaged or defective, or find errors or shortages upon arrival of your order, you must submit a claim to Danze, Inc. in writing within 14 days after such arrival.

Please submit your claims to danze.returns@globeunion.com

LIMITED LIFETIME WARRANTY
All parts of the Danze faucet are warranted to the original consumer purchaser to be free from defects in material and workmanship for as long as the consumer purchaser owns it. To complete an electronic warranty card go to www.danze.com/service/warranty

FINISHES
Choose from the many options of colors and finishes we provide to achieve your desired look. First pick the product you like best, then select your finish. From classic chrome to trendy satin black or distressed tumbled bronze - the choice is yours.

*Danze polished-brass and polished-nickel models feature our Permanence® (PVD) finish, and will not corrode despite years of service. Permanence is super hard, and resists scratching. Great for outdoor use.

PRODUCT CARE
For years of lasting beauty, treat the finish as a delicate surface. For routine cleaning, use a soft cloth and water. A mild soap can be used to clean stubborn spots. Do not use cleaners or cleaning pads with abrasives since the abrasive will scratch the surface permanently. Avoid chemical cleaners, including those with ammonia. Chemicals can attack the protective clear coating present on many of our special-finish faucets.

Washing up your hands or washing the dishes – to some extent, they're chores.

But do they have to be?

We believe these simple acts can be fun, playful and something to look forward to.

That's the power of Danze.
Our fixtures are designed to bring an excitement to the everyday.

They're finely crafted with a precise fit and finish, backed by warranty and held to the most rigorous of standards. Not to mention, come with a knowledgeable sales and support staff.

So go ahead, celebrate your first baths, relish those extra long showers and dare we say it, enjoy washing the pots and pans.

Only danze can make the humdrum disappear, give a real sense of vision and personality to the bath and kitchen, and most of all, promise that no matter what, there's . . .

. . . never a dull moment

bathroom

technology so advanced, it's simple.

Engineered with supreme levels of quality, and available in near countless styles, our Danze shower valve collection will fit what you're looking for, while exceeding expectations. We do this all so you can focus on the really important things, like choosing the design, and functions, that perfectly match your individual shower needs.

And because we make sure each Danze valve provides a consistent, scald-free temperature range and steady water-flow across all outlets, you're able to confidently design up to a 6-component system with showerheads, body sprays, and personal shower systems.

From our ½" valves that easily upgrade your existing plumbing system, to our ¾" Thermosatic Valve that supports an unlimited selection of designs, our advanced technology provides you with a low-worry, high-performance shower experience, no matter which Danze valve you decide on.

just say when.

Reality is, a lot of critical decisions need to be made before your shower system project is complete. Picking the right tile. Choosing paint colors. Selecting lighting. The list goes on. But now, with Danze's 'ready-when-you-are' option, one of those decisions just got a heck of a lot easier.

Ready-when-you-are - lets you postpone the final decision on trim style and valve finish until your project is almost finished. And here's how it works: Choose a basic design with appropriate valve system. Then, whenever you're ready, select from a wide variety of interchangeable trim styles and finishes.

¾" Thermostatic System

½" Pressure Balance System

flexible selection. solid advice.

Quality of product and quantity of selection. These are the two things most valued in the valve you choose and from which company you choose it. And with a robust selection, and unrivaled expertise, Danze boasts both. So no matter your bathroom's design, budget, or plumbing system requirements, you can count on our collection of top quality valves for the perfect solution.

consistent shower from start to finish

Our ¾" Thermostatic Valves work seamlessly with our most sought after collections to provide steady water temperatures and powerful flow.

achieving the perfectly balanced shower

Our ½" Pressure Balance Valves automatically level incoming hot and cold water pressure to create a consistent and comfortable water temperature. We even engineered it with a flow rate strong enough to support up to two showerheads.

shower

a little change can go a long way

At Danze, we believe a great shower is a necessity, not a luxury. We work hard to provide simple, intuitive products that blend the right level of technology, design and innovation at a price that's affordable. From small replacements to major remodels, Danze has the perfect product to fit your needs.

- One click to adjust multi function with EASY-GLIDE™ SELECTOR RING.
- Effortless to rid of calcium build up with EASY CLEAN JETS.
- FILTER SCREEN in Air Injection brass ball joint prevents hardwater sediment from build up.

Showerheads

Turn a routine shower into a relaxing destination with a Danze showerhead. Showering will never be the same thanks to our innovative engineering and smart designs. Contemporary, traditional, large, small, multi-function or eco-friendly – whatever the need, Danze can fulfill it. Once installed, you will wonder why you waited so long.

Handshowers & Handshower Kits

With all the benefits of a showerhead, our Danze handshowers are a great alternative for those who need additional functionality. Powerful, yet light weight, our handshowers are available with 3 or 5 different spray functions. To simplify the ordering process, we offer a handshower kit, complete with the handshower of your choice and coordinating mounting hardware accessories.

Body Sprays

Our wall mounted body sprays really hit all the right spots. With adjustable spray patterns, in full spray or massage, and moveable nozzles, it's easy to re-create a spa-like environment at home.

Adjustable Slide Bar Kits

A perfect package for a versatile shower. Our Danze Slide Bar Kits come ready to install with a handshower, metal hose and a smooth operating slide bar. For super easy single-hand adjustment, check out our Versa Slide Bar kits.

Shower Accessories

Danze offers all the parts and accessories you need to completely outfit your shower. From adjustable showerarms to supply mounts, you'll find all the necessary components to complete your project.

Sacrifice Nothing but Water

Conserving water is no longer a trend, it's reality. Showering is one of the leading ways we use water in the home, making it increasingly important that we consider ways to reduce our shower water consumption. A family of 4 could save between 16 - 32 gallons of water per day simply by changing their old showerheads to a Danze Efficient or Conservation Flow model. If you consider energy costs to heat this water, the utility savings can top $100 per year.

The good news is that showerhead technology has come a long way. Choosing more efficient shower products no longer means a lack of style or performance. In fact at Danze, we've been perfecting these products for years. We've worked closely with the EPA to develop products that meet the WaterSense certification standards. Not only will you experience a better performing shower with Danze, but you will save up to 40%* in water and energy.

We offer a variety of WaterSense certified showerhead and handshower products within our Conservation Flow and Efficient Flow categories. In addition, we continue to offer Standard Flow shower products at the maximum flow rate of 2.5 gpm.

intenze by danze

Your shower should be more than just a shower.

It should be an escape. A rare moment where you're able to drop what you're doing, and not worry about a thing. A time to let warm, soothing water relax your mind, while perfectly pressured water relaxes your body. A time to soak in your surroundings. A time just for you.

It is more than a shower.

It's an escape.

It's Danze.

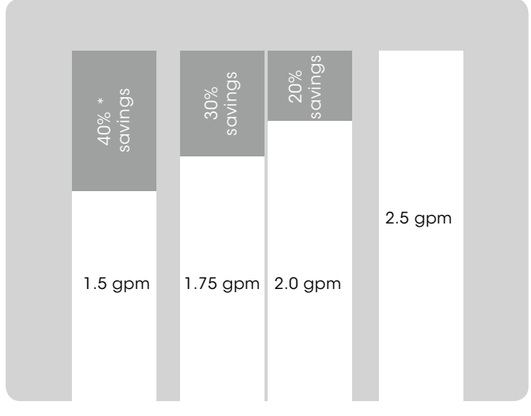
Feel calm, cold, warm or hot under pressure

DUAL VALVE™ TECHNOLOGY :
Double the valves. Double the desire to hop in

SINGLE-FUNCTION

MULTI-FUNCTION



Performance

Performance is what separates a good shower from a great shower. It's an attribute that has always been central to the Danze product line, and this year we're continuing that commitment by introducing a new kind of showering experience.

Air Injection™ Technology:

Air Injection™ technology takes showers to a whole new level by combining the performance of our new showerhead designs with the benefits of our patented air-injection technology.

The result? Showerhead performance is enhanced. Water and energy is saved.

Increased water intensity even in Conservation and Efficient Flow configurations

- Aerated water stream delivers a gentle spray (no stinging)
- Wider spray patterns, increased coverage, even distribution
- Quiet operation
- Available on selected single or multi-function showerheads
- Offered in a variety of cutting edge styles

Conservation Flow

Effective January 2016

Maximum Flow Rate • 1.5 gpm @ 80 psi

Uses 40% less water than a standard showerhead ¤

The Danze Commitment to Responsible Design

Low-Lead

Meets NSF / ANSI 372 NSF/ANSI 372
LEAD-FREE refers to <0.25% weighted average lead content in relation to wetted surface of pipe, fittings and fixtures in systems delivering water for human consumption.
Danze lavatory, bar, and kitchen faucets comply with Section 1417 (a)(1) of Drinking Water Act by third party agency NSF.

Universal Design

Most Danze faucets and fixtures meet the ease of operation requirements set by the Americans with Disability Act (ADA). All Danze toilets are ergonomically designed at a level that makes sitting and standing more comfortable for any age group.

WaterSense

The EPA WaterSense program seeks to protect the future of our nation's water supply by offering a simple way to use less water with water-efficient products. Any product bearing the WaterSense label have been certified to be at least 20% more efficient without sacrificing performance.
If one in every 10 American homes upgraded a full bathroom with WaterSense labeled fixtures, we could save about 74 billion gallons of water a year.

CALGreen Code

Danze continues its commitment to support water conservation efforts by working within the guidelines of the California Green Building Standards Code (CALGreen Code). As mandated by law, California buildings must reduce the maximum flow of water by 20% on all plumbing fittings and fixtures.

PRODUCT FEATURES INDEX A - Z

Air Injection™ Technology

As one of the latest developments in showerhead technology, Danze Air Injection Technology infuses air into the water stream through our uniquely designed ball joint. These air-infused water droplets boost shower performance, increase velocity, water coverage and create a more soothing spray (no stinging) even at flow rates that are less than 2.5 gpm. More importantly, our Air Injection™ Technology can be combined with either our Pressure Manifold™ or Dual Valve capabilities to deliver the ultimate shower experience.

Ceramic Disc Valve

A valve controls the flow of water. It responds to the turn of a handle from on to off and off to on. Danze Ceramic Disc Valves are built using two ceramic disc plates that have been smoothed to perfection. This smooth finish creates a water tight seal between the two plates as they slide to and from the on/off position. Danze Ceramic Disc Valves are maintenance free and stand the test of time.

Dual Valve™ Technology

The engine behind most Danze multi-function showerheads and handshowers, our Dual Valve™ Technology, minimizes water pressure loss as settings change. Even at low pressures, our Dual Valve™ Technology optimizes water intensity so performance can't be compromised.

Easy Glide™

Danze Easy Glide™ selector ring makes adjusting the showerhead spray settings easy and effortless and is available on most of our multi-function showerhead and handshower products.

gpf

Gallons per flush.

gpm

Gallons per minute.

lpf

Liters per flush.

Laminar flow

A type of flow that allows water to travel more smoothly or ribbon-like.

Neoperl®

Neoperl® provides high-quality products that shape and control water streams, meet flow rate regulations, protect from backflow and facilitate compliance with Codes and Standards. Neoperl is used in a variety of Danze products.

Pressure Manifold™ Technology

Pressure Manifold™ Technology, is the engine behind most of our single function showerheads. Danze Pressure Manifold™ Technology is ideal for low pressure and low flow rate environments, providing both wide coverage and a powerful spray.

Quick Connect System

An improvement to the "under the sink" installation process, the Danze Quick Connect System features a push-to-lock applicator which connects the faucet valve to the spout or spray hose. The system is easy to use, especially in difficult to access areas under the sink, and helps to greatly reduce installation time.

Spring Retraction System

The Danze engineered stainless steel spring retraction system found on our pull-out and pull-down kitchen faucets, is easy to install and allows the user to "take the water to work" with minimum effort. This system is designed to provide a smooth, effortless experience and allows the spray head to fit securely back into place.

terms and conditions

The following terms and conditions are deemed to be incorporated by reference in any order for the sale of products by Danze, Inc.

Orders and Acceptance: Danze, Inc. reserves the right to refuse or to accept any order. No purchase order or indication of acceptance shall create a contract or otherwise be binding upon Danze, Inc. unless and until the same is accepted in writing at Danze, Inc. offices located in Woodridge, Illinois. In the event Danze, Inc. accepts an order from the purchaser, it is expressly understood and agreed that the terms and conditions herein set forth shall prevail. Not withstanding the fact that the same may conflict with or vary from the terms and conditions set forth on any purchase order or other form which the purchaser may use to place such order. The placing of such order by the purchaser shall be deemed to note the purchaser's assent to the foregoing.

Freight: Danze, Inc. reserves the right to ship goods with the carrier of our choice. Freight is paid on qualifying orders. Please refer to appropriate Danze discount lists for specific qualifying factors to destinations on or within the continental US.

Warranty: Please refer to the Danze, Inc. Warranty enclosed with each Danze, Inc. product for specific details. Additional copies are available on request.

Promises of Shipment: Any shipping date shown is only an estimate of the date of shipment. Danze, Inc. does not guarantee shipping dates and not withstanding anything contained herein to the contrary, Danze, Inc. will not be responsible for any consequential, special or indirect damage of any nature, or any damages that include the loss of profits suffered by purchaser because of late shipping or delivery by Danze, Inc.

Return of Good Materials: There will be a minimum 25% restocking charge for authorized returns of brass fittings, a minimum 35% restocking charge for authorized returns of fixtures. Freight cost for return of good material is the responsibility of the customer.

Product Modification: Danze, Inc. reserves the right to cancel, modify, change, alter, or re-design products at its sole discretion without liability for potential obsolescence of customers inventory stock.

Inspection: The purchaser shall at its sole expense submit all products shipped to a careful inspection upon arrival at delivery point. All claims for damages, defects, errors, shortages or other failure of the products to conform to this agreement or their catalog description shall be delivered to Danze, Inc. in writing within 14 days after such arrival. Failure to make such claim within said time shall constitute acceptance of all products so delivered as conforming to the terms, conditions and specifications hereof, and in no event may the purchaser thereafter revoke such acceptance. Any claims by the purchaser shall be subject to inspection by Danze, Inc. or its authorized agent, to whom the purchaser shall make available access to such products and all relevant information relating to the claim.
Taxes: All prices are exclusive of and may be increased by the amount of, any and all applicable excise, sales, use, manufacturer's, value added and other taxes, levies or imposts of a governmental nature whether federal, state or local.

Price, Acknowledgement & Cancellations: Prices and terms are subject to change without notice.

Loss or Damage in Transit: All products are sold FOB the carrier at Danze, Inc.'s dock, with risk of loss passing to the purchaser at that point. The purchaser is responsible for arranging and paying for all insurance against risk of loss or damage to the products after Danze, Inc. delivers the products into the possession of the carrier.

Collection Charges: In the event it becomes necessary to incur any expense for the collection of any overdue accounts, reasonable collection charges, including reasonable attorneys fees, will be added to the balance due and the purchaser shall pay any said charge.

Applicable Law: The laws of the State of Illinois shall govern any sale.

Modification: These terms and conditions express the entire understanding of the parties hereto with respect to the subject matter hereof. No variation hereof and no agreement modifying or supplementing the terms hereof shall be valid unless in writing and signed by an authorized officer of purchase and Danze, Inc.

Non Waiver: Any failure on Danze, Inc.'s part to insist upon the strict performance of any term or condition set forth herein shall not be deemed a waiver of any of Danze, Inc.'s rights or remedies hereunder, nor of it's rights to insist upon the strict performance of the same or any other term hereof in the future. No waiver of any term or condition hereunder shall be valid unless in writing and signed by a duly authorized officer of Danze, Inc.

The above terms and conditions do not apply to original equipment manufacturers (OEM) or export sales or purchases made in the United States of America for export purposes. Please contact the OEM or export department at Danze, Inc. for further details.
