# WELCOME TO A TRANSFORMATION

A thoughtful balance  
of form and function.

Inspired, beautiful  
design on the outside.

Handcrafted, trusted  
performance on the inside.

A combination that  
results in true value  
and commitment.

You can call it a  
breath of fresh air.

We call it Danze by Gerber.

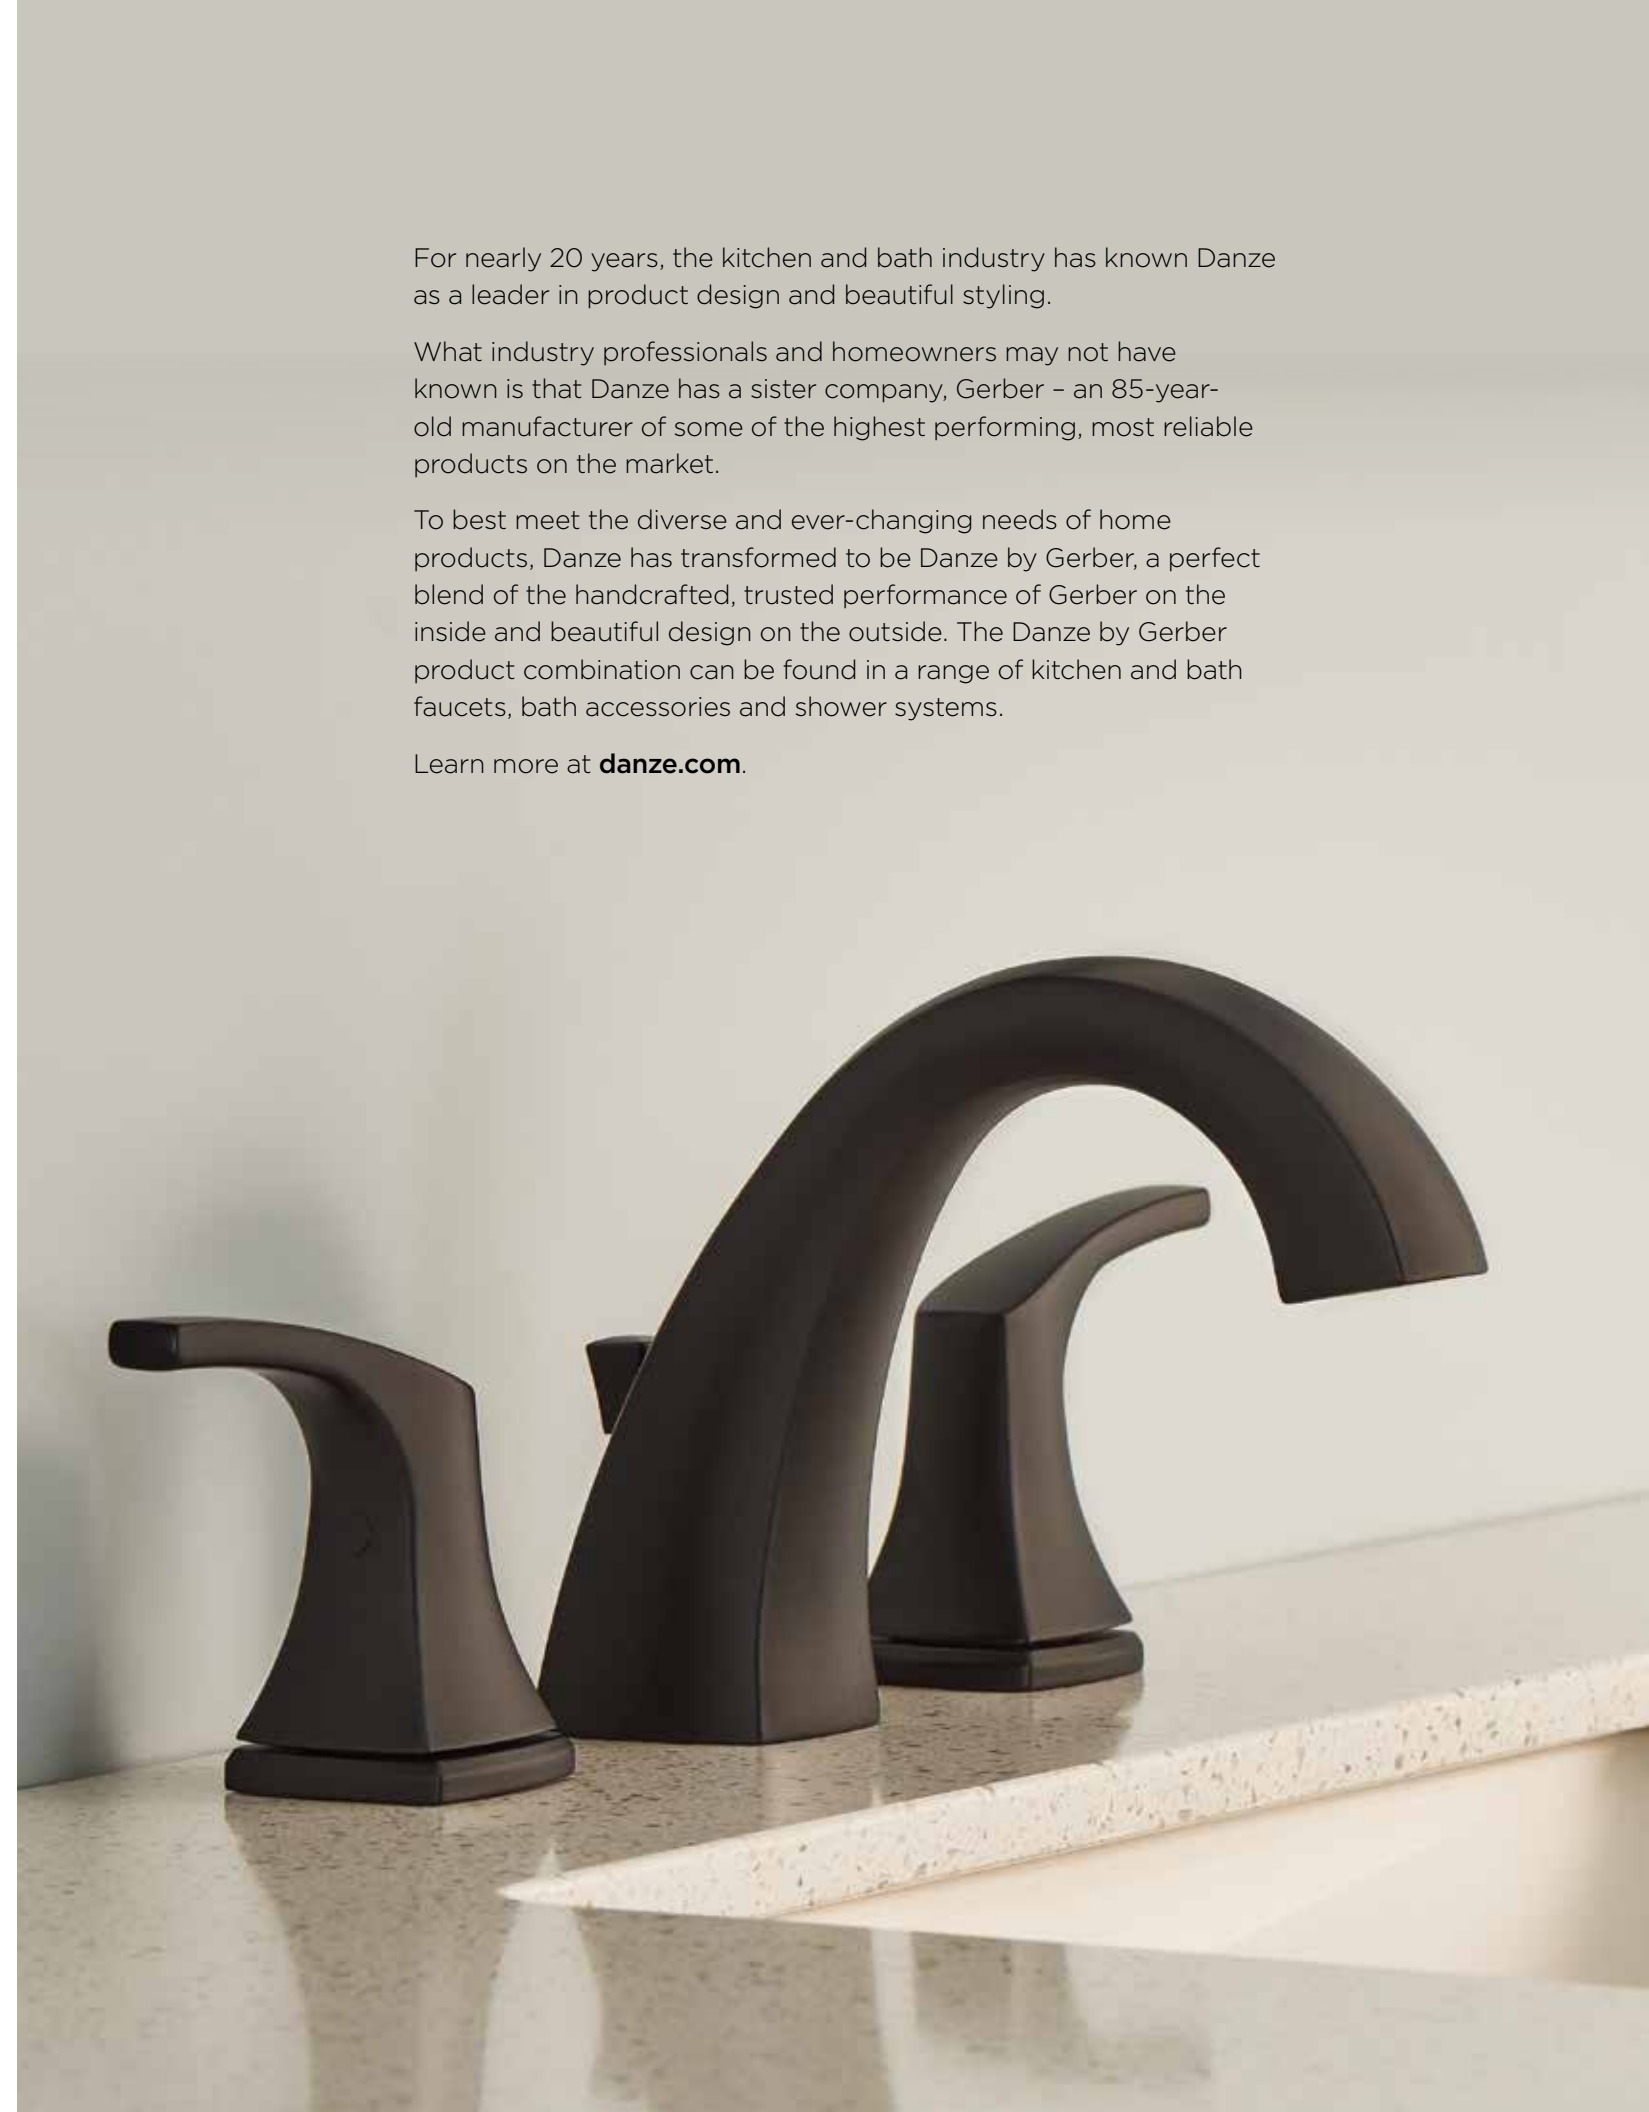

**danze**<sup>®</sup>  
by GERBER

For nearly 20 years, the kitchen and bath industry has known Danze as a leader in product design and beautiful styling.

What industry professionals and homeowners may not have known is that Danze has a sister company, Gerber – an 85-year-old manufacturer of some of the highest performing, most reliable products on the market.

To best meet the diverse and ever-changing needs of home products, Danze has transformed to be Danze by Gerber, a perfect blend of the handcrafted, trusted performance of Gerber on the inside and beautiful design on the outside. The Danze by Gerber product combination can be found in a range of kitchen and bath faucets, bath accessories and shower systems.

Please submit your claims to danze.returns@globeunion.com

ICONOGRAPHY			
	New product		
	Kitchen and Lavatory Faucets have various structural improvements in installation or performance. Tub & Shower trim is improved with updated hot/cold escutcheon artwork and inclusion of the all new Treysta cartridge.		
	Pressure Manifold™ Technology — Unique interior design that channels water to each nozzle for maximum performance.		
	Dual Valve™ Technology — Structural design that optimizes water flow for multi-function showerheads.		
	Air Injection™ Technology— Air is added to the water stream to increase the water pressure and improve overall feel of the shower experience.		
	Meets the requirements of the Americans with Disabilities Act		

LIMITED LIFETIME WARRANTY  
All parts of the Danze faucet are warranted to the original consumer purchaser to be free from defects in material and workmanship for as long as the consumer purchaser owns it. To complete an electronic warranty card go to www.danze.com/service/warranty

FINISHES  
Choose from the many options of colors and finishes we provide to achieve your desired look. First pick the product you like best, then select your finish. From classic chrome to trendy satin black or distressed tumbled bronze - the choice is yours.

PRODUCT CARE  
For years of lasting beauty, treat the finish as a delicate surface. For routine cleaning, use a soft cloth and water. A mild soap can be used to clean stubborn spots. Do not use cleaners or cleaning pads with abrasives since the abrasive may scratch the surface permanently. Avoid chemical cleaners, including those with ammonia. Chemicals can attack the protective clear coating present on many of our special-finish faucets. Use of such chemicals may void the warranty.

# TREYSTA™ VALVE

WORK SMARTER.  
NOT HARDER.

Engineered with the experts in mind, the Treysta™ tub and shower valve is Gerber’s most innovative valve yet. Powered by more than 85 years of Gerber performance, Treysta provides flexibility based on the specific requirements of each installation. From the intuitive open and close stops for easy maintenance, to easy installation and pressure-testing features, Treysta saves both time and money. Fully compatible with Danze by Gerber shower trim kits, Treysta helps you get the job done quickly and confidently – affording you the peace of mind backed by Gerber reliability.

G00G2525S

### FEATURES AND BENEFITS

- **Revolutionary Vertical Inlets** – Treysta’s vertical inlets allow for maximum flexibility in the wall, and can install next to a stud in PEX applications without requiring re-framing
- **Easy Pressure Testing Capability** – Treysta features an innovative pressure test cap to make the process of air and water pressure testing easier to complete
- **Easy Installation and Access** – With an easy-access mounting system and integrated depth indexing features on the plaster guard, Treysta is engineered to install smoothly and quickly
- **Flexible and Adaptable for Different Environments** – Treysta has a solution for “with” and “without” stops, and accommodates back-to-back installations and reversed hot and cold inlets, as well as IPS / sweat, Crimp PEX and Cold Expansion PEX
- **Secure and Level Mounting** – The body of the valve features integrated mounting holes for a firm and secure hold, and the flat plane of the plaster guard allows it to install level with the wall
- **Innovative Common Platform** – Treysta uses a common platform of pressure balance cartridge for all configurations, meaning that a single cartridge fits in all valve bodies
- **Fully Compatible Danze® by Gerber Trim** – Danze by Gerber trim has been updated to include the Treysta pressure balance cartridge, which will ultimately minimize cartridge damage during rough-in installation

# VALVES

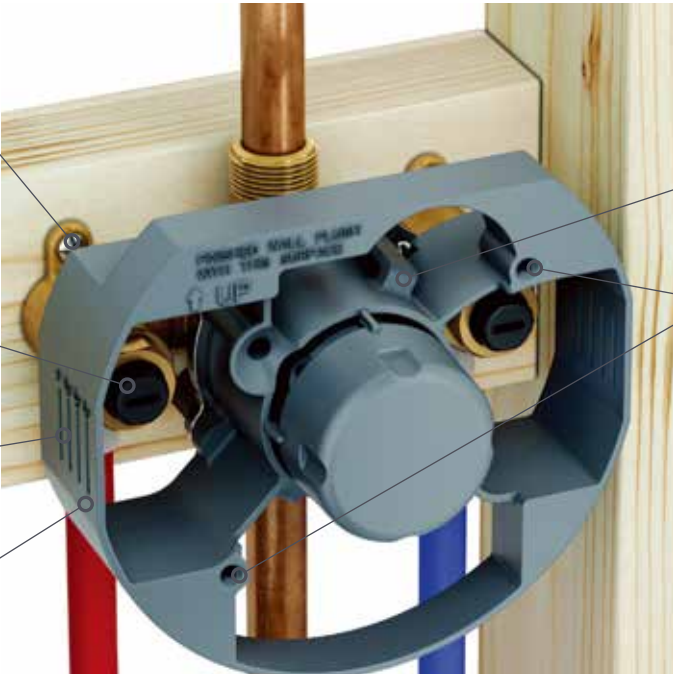

Integral mounting holes for fast, secure mounting

Quarter turn stops easily open and close using a flat head screwdriver

Stops secured with durable, threaded brass nut easily secured with standard socket

Finished wall depth indicators in 1/4” increments for easy depth indexing

Top and side surfaces are flat to simplify tile cutting and help ensure level installation

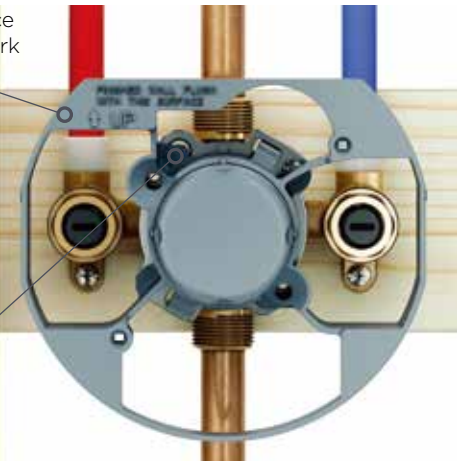

Plaster guard features a no-tool clip design for fast removal while providing a secure hold

Two attachment points for thin-wall installations

Unique shaped plaster guard protects body, provides surface to use level and ease of tile work

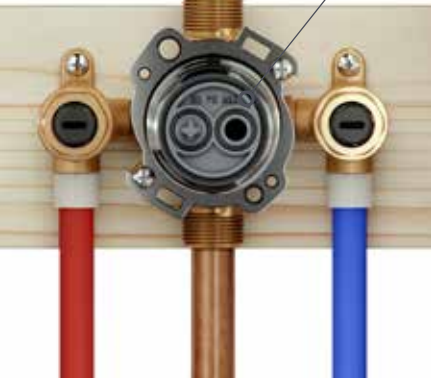

Valve body can be rotated 180 degrees for top-down installations with a few simple steps

Requires rotation of retention plate and plaster guard

Includes pressure test cap for air or water pressure testing

The innovative test plug can test mixed pressure, or isolate an inlet to test pressure or for system cross flow

# SHOWER

## ONE GREAT DECISION AFFECTS ANOTHER

When paired with the trusted power of a Gerber valve, our tub and shower collections deliver a fully customized experience that perform consistently and integrate seamlessly with any design.

From complete trim and cartridge kits, to simple enhancements like a hand shower, Danze by Gerber offers a large assortment of solutions that begin - and end - with one great decision.

# SHOWER SOLUTIONS

**A customized shower experience is closer than you think. By combining the following components, you can create a two-outlet shower solution.**

Built on the Gerber Treysta™ platform, each solution is thoughtfully designed to deliver strong, consistent performance. Danze by Gerber tub and shower trim and handshower solutions allow you to create a beautiful and tranquil space with multiple outlets to maximize the power of your shower.

The first solution, **integrated diverter on valve**, uses a Treysta™ valve with a diverter built into the valve body. The solution is intended to work with tub and shower trim, as well as two-outlet solutions such as a showerhead and handshower. The diverter directs the flow of water, and has two positions to shut off one outlet and turn on another.

### Integrated Diverter on Valve

The second solution, **independent diverter valve**, uses a diverter control separate from the main valve. The solution is intended to work with two-outlet configurations, such as a showerhead and handshower. The diverter directs the flow of water, and has three positions to either shut off one outlet and turn on another, or have both running at the same time.

### Independent Diverter Control

For custom shower systems, please contact your sales rep for more details.
