# A BREATH OF INSPIRATION

---

Working within a space, and elevating it.

Blending high style with pure performance.

Delivering innovative, bold, beautiful solutions.

Always in tune with the surroundings.

A touch of grace. A modern line.

Meticulously engineered. Thoughtfully designed.

This is Danze by Gerber.

A modern shower enclosure with a glass door and a wooden plank wall. The shower has a black frame and a black showerhead. The wall is made of horizontal wooden planks. The floor is covered in dark grey tiles.

Danze has established itself by design. Our products have graced refined interiors and showrooms for more than 20 years, earning pride of place within the kitchen and bath industry.

Our style is not without substance. Our sister company, Gerber, has mastered performance over the course of nearly a century and become synonymous with reliability. Together, we adhere to uncompromising quality standards. Reliability and longevity are an enduring promise we make to industry professionals and homeowners.

Danze by Gerber is proud to offer a complete line of kitchen and bath faucets, bath accessories and shower systems, distinguished by superb style and a commitment to quality.

## CUSTOMER SERVICE

For information on product availability, order status, to change/cancel an existing order or for any other customer service inquiries, call toll-free Monday through Friday 9:00 a.m. - 6:00 p.m. (USA) or Monday through Friday 8:30 a.m. - 5:00 p.m. (Canada). You can also email us at [customer.service@globeunion.com](mailto:customer.service@globeunion.com)

**USA: 877-538-5536**  
**Canada: 866-884-8841**

## ORDER ENTRY

To place an order directly with the manufacturer, please submit your purchase order via fax 1-630-679-1430 or by email [danze.orders@globeunion.com](mailto:orders@globeunion.com).

## WARRANTY PARTS/TECHNICAL SUPPORT

For technical support on product installation, trouble shooting, or parts related inquiries, call toll-free Monday through Friday 8:00 a.m. - 8:00 p.m. or Saturday 9:00 a.m. - 6:00 p.m. (est). To order a warranty part, please submit your purchase order via fax 1-866-907-8003 or by email [support@globeunion.com](mailto:support@globeunion.com).

**1-888-648-6466**

## RETURN POLICY

There will be a minimum 25% restocking charge for authorized returns of brass fittings, a minimum of 35% restocking charge for authorized returns of fixtures. Freight cost for return of good material is the responsibility of the customer.

Should you find your product to be damaged or defective, or find errors or shortages upon arrival of your order, you must submit a claim to Danze, Inc. in writing within 14 days after such arrival.

Please submit your claims to [danze.returns@globeunion.com](mailto:danze.returns@globeunion.com)

## ICONOGRAPHY

**NEW**

New product

Pressure Manifold™ Technology — Unique interior design that channels water to each nozzle for maximum performance.

Dual Valve™ Technology — Structural design that optimizes water flow for multi-function showerheads.

Air Injection™ Technology— Air is added to the water stream to increase the water pressure and improve overall feel of the shower experience.

Meets the requirements of the Americans with Disabilities Act.

## FINISHES

Choose from the many options of colors and finishes we provide to achieve your desired look. First pick the product you like best, then select your finish. From classic chrome to trendy satin black or distressed tumbled bronze - the choice is yours.

## PRODUCT CARE

For years of lasting beauty, treat the finish as a delicate surface. For routine cleaning, use a soft cloth and water. A mild soap can be used to clean stubborn spots. Do not use cleaners or cleaning pads with abrasives since the abrasive may scratch the surface permanently. Avoid chemical cleaners, including those with ammonia. Chemicals can attack the protective clear coating present on many of our special-finish faucets. Use of such chemicals may void the warranty.

# TREYSTA™ VALVE

WORK SMARTER.  
NOT HARDER.

Engineered with the experts in mind, the Treysta™ tub and shower valve is Gerber's most innovative valve yet. Powered by more than 85 years of Gerber performance, Treysta provides flexibility based on the specific requirements of each installation. From the intuitive open and close stops for easy maintenance, to easy installation and pressure-testing features, Treysta saves

both time and money. Fully compatible with Danze by Gerber shower trim kits, Treysta helps you get the job done quickly and confidently – affording you the peace of mind backed by Gerber reliability.

G00G2525S

## FEATURES AND BENEFITS

- **Revolutionary Vertical Inlets** – Treysta's vertical inlets allow for maximum flexibility in the wall, and can install next to a stud in PEX applications without requiring re-framing
- **Easy Pressure Testing Capability** – Treysta features an innovative pressure test cap to make the process of air and water pressure testing easier to complete
- **Easy Installation and Access** – With an easy-access mounting system and integrated depth indexing features on the plaster guard, Treysta is engineered to install smoothly and quickly
- **Flexible and Adaptable for Different Environments** – Treysta has a solution for “with” and “without” stops, and accommodates back-to-back installations and reversed hot and cold inlets, as well as IPS / sweat, Crimp PEX and Cold Expansion PEX
- **Secure and Level Mounting** – The body of the valve features integrated mounting holes for a firm and secure hold, and the flat plane of the plaster guard allows it to install level with the wall
- **Innovative Common Platform** – Treysta uses a common platform of pressure balance cartridge for all configurations, meaning that a single cartridge fits in all valve bodies
- **Fully Compatible Danze® by Gerber Trim** – Danze by Gerber trim has been updated to include the Treysta pressure balance cartridge, which will ultimately minimize cartridge damage during rough-in installation

# VALVES

Integral mounting holes for fast, secure mounting

Quarter turn stops easily open and close using a flat head screwdriver

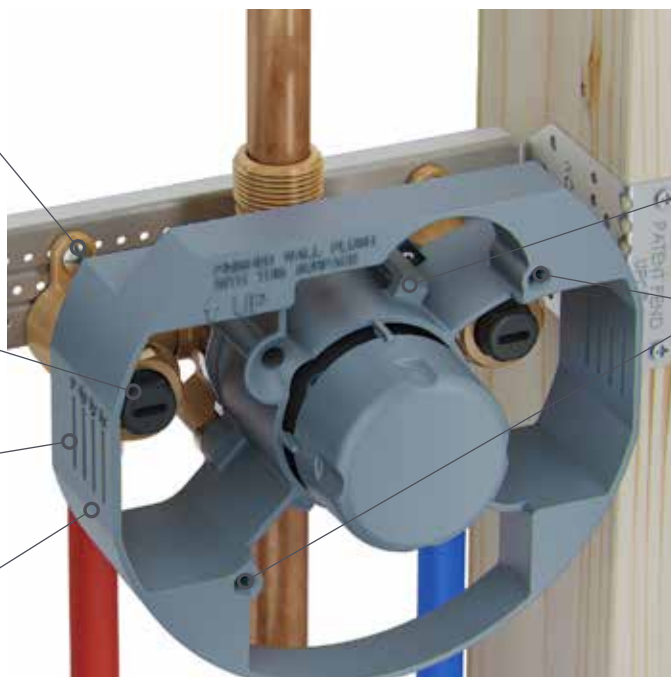

Stops secured with durable, threaded brass nut easily secured with standard socket

Finished wall depth indicators in 1/4" increments for easy depth indexing

Top and side surfaces are flat to simplify tile cutting and help ensure level installation

Plaster guard features a no-tool clip design for fast removal while providing a secure hold

Two attachment points for thin-wall installations

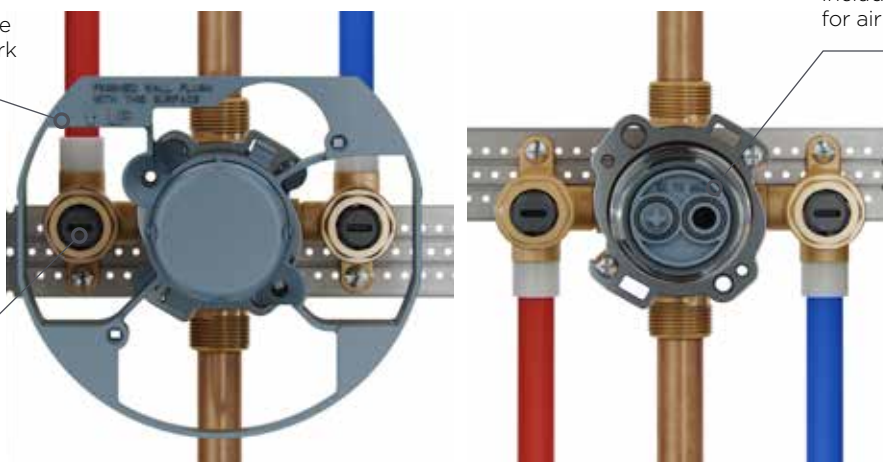

Unique shaped plaster guard protects body, provides surface to use level and ease of tile work

Valve body can be rotated 180 degrees for top-down installations with a few simple steps

Requires rotation of retention plate and plaster guard

Includes pressure test cap for air or water pressure testing

The innovative test plug can test mixed pressure, or isolate an inlet to test pressure or for system cross flow

# — SHOWER —

Danze tub and shower collections allow you to design a customized shower system, with the latitude to express your personal style, and have the relaxing custom shower experience of your dreams.

Choose from a selection of showerheads, handshowers and body sprays, featuring more environmentally friendly flow rates and slide bars for added flexibility, or select a single enhancement to add the perfect accent.

# SHOWER SOLUTIONS

***A customized shower experience is closer than you think. By combining the following components, you can create a two-outlet shower solution.***

Built on the Gerber Treysta™ platform, each solution is thoughtfully designed to deliver strong, consistent performance. Danze by Gerber tub and shower trim and handshower solutions allow you to create a beautiful and tranquil space with two outlets to maximize the power of your shower.

## INTEGRATED DIVERTER ON VALVE

The first solution, **integrated diverter on valve**, uses a Treysta™ valve with a diverter built into the valve body. The solution is intended to work with tub and shower trim, as well as two-outlet solutions such as a showerhead and handshower. The diverter directs the flow of water, and has two positions to shut off one outlet and turn on another.

## INDEPENDENT DIVERTER CONTROL

The second solution, **independent diverter valve**, uses a diverter control separate from the main valve. The solution is intended to work with two-outlet configurations, such as a showerhead and handshower. The diverter directs the flow of water, and has three positions to either shut off one outlet and turn on another, or have both running at the same time.
