### Drain Hole Requirement

This unit requires a minimum of this drain hole

1 1/2" Drain

### Fitting / Thread Size

\* Understanding 1 1/4" Fittings / Threads

Although called a "1 1/4" Fitting" or "1 1/4" Thread", which is a standard plumbing pipe thread size in North America, the threads **DO NOT** actually measure 1 1/4", if measured with a ruler or tape measure. 1 1/4" is an internationally standardized term, not the true size of the fitting or threads.

"1 1/4 inch" FEMALE pipe fittings / threads actually measure 1.52 inches from the crest (peak) of the threads on one side to the crest of threads on the opposite side

"1 1/4 inch" MALE pipe fittings / threads actually measure 1.62 inches from the crest (peak) of the threads on one side to the crest of threads on the opposite side
